

Vacancy for Laboratory Director of Key Laboratories of AQSIQ

Special equipment safety and energy saving key laboratory and non-destructive testing and evaluation laboratory of AQSIQ were founded in 2015. They are the first batch of key laboratories of AQSIQ, the construction and operation are managed by CSEI. According to the requirement of *Administrative Methods for the Accreditation of Key Laboratory of AQSIQ*, CSEI decided to openly recruit 2 laboratory directors at home and abroad for a five-year term. Please contact us to get the brief introduction of the key laboratories, laboratory director responsibilities, job requirements and application materials to be submitted.

Please submit your application material to jianli@csei.org.cn before Aug. 6th, 2017. CSEI will make initial selection after sifting through all submitted materials and arrange interview for the selected applicants. The optimal candidates will be selected according to the interview result, and will be recommended after CSEI's board meeting to the Department of Science & Technology of AQSIQ for recruitment.
